shaping information

We shape
your Digital
Archives with
Legal Value

PSDC
"A Certified
Solution"

As a Solution Enabler specialized in Business Process Outsourcing we offer a suite of digital information solutions. e-Archiving was part of our solution portfolio since inception. Now we go **one step further** and we provide the platform to extend your archives with the latest legal framework.

Victor Buck Services is a recognized expert in the service provisioning of digitisation and e-archiving, confirmed by the PSDC* status provided by ILNAS**.

We produce digital images with the same legal value as the original paper documents.

Time is money

Forget paper, immediate access to your digital documents from any device, anywhere, anytime.

Improved Operational Efficiencies

- Integral part of a proven global operational model;
- no loss of original paper value;
- increase the digital footprint.

Opportunities for cost reduction

- Reduce physical archiving costs;
- boost your digital transformation, go with less paper, become paperless;
- decrease transport costs;
- disposal of paper documents can be done any time after having been processed in PSDC mode.

*PSDC: Digitisation or e-archiving service providers ("Prestataires de services de dématérialisation ou de conservation")

**ILNAS: Institute for the normalisation, accreditation, security and quality of products and services
("Institut luxembourgeois de la normalisation, de l'accréditation, de la sécurité et qualité des produits et services")

"You don't need the expertise in house. Use our certification!"

Guaranteed governance, security and compliance

- As a certified and authorised PSDC Service Provider we deliver a specialised and reliable service in digitising and e-Archiving;
- for financial institutions we hold the necessary PSF statuses;
- your legal copies are created and archived according to your requirements, organisational constraints and implementation conditions, and in line with the legal framework;
- we provide the highest levels of security access management and audit tracking;
- professional secrecy is our DNA.

Trusted services

Victor Buck Services ICT Infrastructure is hosted in our [dual state-of-the-art Tier IV certified data centers in Luxembourg](#). The 2 data centers are interconnected, using the latest technologies designed to maximise the security and the availability of critical information.

Regulated digitisation and electronic archiving solution.
